## **Review: Current Short Documentary / Reference**

1. Digital Sylt ClimateSchoolCongress  
v. 27.1.2021

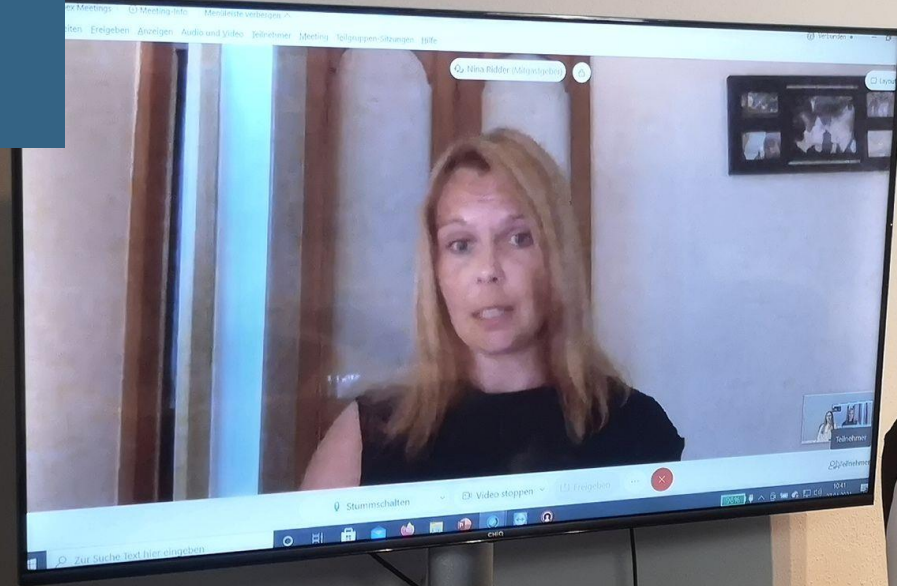

# Reforestation against forest fires

Student presenter Hannah Leifer, 17 y.  
Level 12/Q2 High School Horn Bad Meinberg

Oisín Boersma,  
Student in the Department of Forestry, University of Göttingen

Dr. Nina Ridder  
Center of Excellence for Climate Extremes, Uni Sydney

# Spontaneous reaction via email/Whatsapp

*"I found the content of the event very well prepared. It covered everything from know-how transfer to local and global aspects. My hope is that the students will be enabled in this way and, above all, that they will feel like taking action themselves. Freely according to the motto: 'Knowledge makes you strong!'"*

**Dr. Catharina Bayerlein**

**Climate protection manager of the island of Sylt**

*"Dear Mr. Tenkhoff, dear Ms. Bayerlein (Climate Protection Manager Sylt), it has just ended - our ClimateSchoolCongress on Sylt. Like almost all of the 280 announced students, I followed everything to the end, together with Mr. Marwede, and I am absolutely taken with this very varied, entertaining and, above all, professionally very well-founded format. Thank you very much for your commitment and all the work that went into this project, so that it could succeed in such a great way and will continue to engage our students and hopefully also keep them mentally/intellectually occupied. I would also like to ask you, Mr. Tenkhoff, to give a very special thank you to the super fantastic and highly committed moderator, who - in my opinion - just did her part in an impressively professional and skillful way! I look forward to further cooperation and remain with rainy greetings from Sylt."*

**Gonde Detlefsen**

**Principal**

**School Center Sylt High School with Community School Part of the School Association Sylt**

*„Well done.“*

**Prof. Karen Wiltshire**

**Deputy Director of the Alfred Wegener Institute**

*"A fantastic and very challenging project in the Corona School Lockdown! This format has succeeded in helping students understand climate change and its devastating consequences, and to work together to find ways and solutions out of the crisis. The project should set a precedent nationwide!"*

**Ute Kreienmeier**

**Head of Department Municipal Forest, Environment and Nature Conservation**

**German Association of Towns and Municipalities Bonn**

*"Thank you so much. It was fun."*

**Oisín Boersma,**

**Student in the department of forestry, 5th semester;**

**Former student of the Sylt School Center**

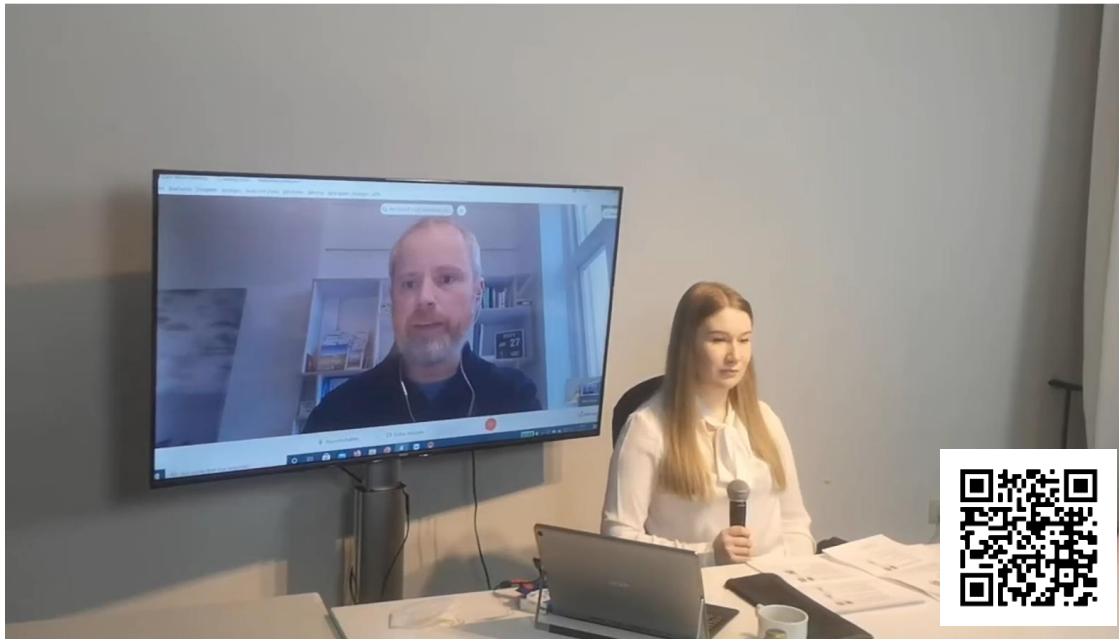

# Video-Clips „Behind the scenes“

## Live-Stream Production

**Project:** 1st Digital Sylt ClimateSchoolCongress
